

22ND INTERNATIONAL SOCIETY FOR MUSIC INFORMATION RETRIEVAL CONFERENCE

CALL FOR LAB SHOWCASE

We are happy to announce that ISMIR2021 is inviting labs to our Lab Showcase, a new ISMIR activity! This call is open to **academic** labs **focusing on MIR research**. To avoid overlap, we accept **no more than one lab from each institution** (but labs are welcome to team up).

LAB SHOWCASE

Lab Showcase is an activity introduced this year at ISMIR where every attendant lab will be allocated a **virtual booth**. This provides an opportunity for lab members to **introduce their work** to the conference attendees, thus **encouraging further communications/collaborations**.

The virtual booths provide tools for exchanging text messages, making video calls, and uploading materials. The booth time is flexible and up to the labs, but we expect a minimum availability of **two pre-determined time slots for live chats**. What to share in the booths is totally up to the labs.

SUBMISSION GUIDELINES

We need the following information in submissions:

- ✓ Lab name, affiliation (institution), and country;
- ✓ Principle director(s) and contact email(s);
- ✓ A brief lab introduction (about one paragraph)

Apply Here: bit.ly/ismir2021labs
